Greetings Brad. Since it's been awhile, I thought it would be a good idea to send you a short update and let you know current status at Westpoint Harbor.

Mark had asphalt, curbs and gutters installed for the road and parking areas from the harbor house east to the future boat ramp. If weather permits, the road will be sealed and parking spaces stripes done this week. He also installed street lights for this area. The first half of the boat ramp parking area has been graded and rocked. Mark hopes to do the second half this month. It will then remain as-is over the winter for full settlement so it can be paved next year.

We still have a hold on all landscaping (Eggli) as requested. With the rains, Phase 2 and 3 areas are a quagmire anyway, so not much work will be possible until spring. So that's where the work and process stand right now.

I hope YOU are well, Tom, and also that your niece's treatments are effective and less debilitating as time goes on. Hope you get to spend Thanksgiving with family and good friends! Maureen
